

SAVE THE DATE: MEET THE COMPOSERS

Join Other Minds for the launch of our latest record project Modern Hits. Other Minds Director Charles Amirkhanian will lead an intimate conversation with the series' composers about their works and the Bay Area's electronic music scene both past and present. Modern Hits (an anagram for Other Minds) is a series of digital-only releases by under-recognized electronic music composers from the Bay Area. The series features unreleased recordings as well as reissues of previously released material. Our hope is that the series will shed a new light on the oft-lauded and vibrant electronic music community of the Bay Area.
